## SAF®-Fold Sliding folding system

The solution when conventional sliding doors cannot be fitted

- A genuine response to the problem of operating doors faced by persons with reduced mobility
- Door swing space divided by 3 compared to a standard swing door; saves space when the door is open
  - 2 versions available for different types of use:
    - a version for **"classic"** use
    - a **"heavy duty"** version for intensive use (public places)
